SOME FACTS AT A GLANCE

1st International Conference for Probiotic Medicine

The Austrian Association for Probiotic Medicine (OePROM) proudly announces the first International Conference for Probiotic Medicine which will take place as a hybrid event in the beautiful city of Graz, Austria, as well as online.

This event is designed specifically for medical and scientific professionals from around the globe. It aims to offer a unique insight into the latest microbiome research, with a strong emphasis on understanding the microbiome's role in diseases, prevention, and therapy:

- A high-quality scientific program covering the most recent research, developments, and treatment approaches.
- A multi-disciplinary mix of participants representing clinical researchers and scientists.
- Time and space that encourages interaction, exchanging ideas, and networking opportunities among all participants.

Don't miss out on this unique opportunity to meet renowned scientists and experts, benefit from the highly educational scientific program, as well as exchange your practices and knowledge.

Spread the word – Feel free to invite partners or colleagues, who may want to join the event in Graz or online!

We are looking forward to your participation!
